**ROBOTOSAUR**

**REMOTE**

ON/OFF Switch

Charge Port

NOTE: Only use the included USB cable to charge. Make sure it is OFF when charging.

## CHARGING YOUR ROBOTOSAUR

Your Robotosaur has a 3.7v 500 mAh rechargeable internal lithium battery. Although it comes with some charge, you need to charge it 60 minutes before use.

1. Plug the included custom USB cable into the tail port and then to a device (laptop) or adapter for a wall outlet.

2. When the red light on the USB turns off, it is fully charged. Store the USB cord.

**CUSTOM USB CABLE**

## REMOTE BATTERY INSTALLATION

1. Unscrew and remove the battery compartment cover.
2. Install 3 "AA" 1.5V batteries (not included) as shown in the diagram to the right.
3. Replace the cover and close battery compartment.

## PLAY FEATURES/TROUBLESHOOTING

- Hold the POWER button for 3s to turn off remote.
- When red LED flashes, batteries are low. Please replace the remote batteries for optimal performance.
- If remote is not used for 15 minutes, it will auto shut-off. Press the POWER button again to switch back on.
- When blue LED ring on belly is flashing, Robotosaur's rechargeable battery is low. Please plug in using the included USB charging cable to recharge the battery.
- If Robotosaur is awoken from SLEEP and the remote is still on, the remote will pair automatically with Robotosaur. However, in other disconnection situations, please turn off and on both Robotosaur and the remote to ensure the 2 are paired.
- Robotosaur is shipped in Try-Me mode. To activate full play mode, turn Robotosaur off and back on again.

## MAKING YOUR ROBOTOSAUR GO

Press the POWER Button on the remote and slide the tail switch ON. When the blue light on your Robotosaur's belly is on and his eyes are green, the remote is connected and he is ready to play.

UPSET

HUNTING

HE CAN BE VERY MOODY. HIS EYES WILL ALWAYS TELL YOU WHAT'S ON HIS MIND!

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/ TV technician for help.

The normal function of the product may be disturbed by Strong Electro Magnetic Interference. If so, simply reset the product to resume normal operation by following the instruction manual. In case the function could not resume, please use the product in other location.
